

On the basis of the University of Teramo, there were traineeships of 6 specialists from Ukraine and 2 specialists from Moldova. Within the framework of the project, we have been familiarizing ourselves with the safety and quality of food products laboratories during the week. There were informative presentations, lectures and a master-class on sensory analysis. In addition, we visited a pasta factory. For more information on the work of University of Teramo visit the website at <https://www.unite.it/English/Engine/RAServePG.php>.
